The screenshot shows the 'Widget' creation page in the tcgmcube application. The left sidebar contains navigation links: Explore, Widget (selected), Advanced Analytics, Dashboard, Report, Excel Upload, Help, and Administration. The main content area is titled 'Widget' and features a 'Create New Widget' section with various chart types categorized into Comparison, Trend, Geospatial, Composition, Special, Tables and Summary, and Relationships. The 'Open a Saved Widget' section on the right includes a search bar and a list of saved widgets, currently showing 'No matching widgets found.'

2

The screenshot shows the 'Widget' selection page in the tcgmcube application. The left sidebar is the same as in the previous screenshot. The main content area is titled 'Widget' and features two sections: 'From a New Search, Select Dataset' and 'Or, From a Saved Search'. The 'From a New Search' section shows a search bar with the text 'admin_supstore_time.js' and a list of results. The 'Or, From a Saved Search' section shows a search bar with the text 'Saved Searches Filter...' and a list of saved searches including 'AM1', 'AM_Save_1', 'AM_Save_3', 'AM_Save_4', and 'ASaveSearch_28'.

3

The screenshot shows the 'Widget' configuration page in the tcgmcube application. The left sidebar is the same as in the previous screenshots. The main content area is titled 'Widget' and features a configuration panel for the 'admin_supstore_time.js' dataset. The panel includes tabs for 'Data' and 'Options', a 'metrics' section with a 'Y-Axis' dropdown and an 'Add metrics' button, and a 'buckets' section with a 'Select buckets type' dropdown and a 'Cancel' button. The 'Data' tab is currently selected, and the 'Y-Axis' is set to 'Count'. The 'buckets' section is currently empty, and a message states 'Area charts require more than one data point'.
