No results found 😊

Unfortunately I could not find any results matching your search. I tried really hard. I looked all over the place and frankly, I just couldn't find anything good. Help me, help you. Here are some ideas:

Refine your query

The search bar at the top uses Elasticsearch's support for Lucene Query String syntax. Let's say we're searching web server logs that have been parsed into a few fields.

Examples:

Find requests that contain the number 200, in any field:

200

Or we can search in a specific field. Find 200 in the status field:

status:200

Find all status codes between 400-499:

status:[400 TO 499]

Find status codes 400-499 with the extension php:

status:[400 TO 499] AND extension:PHP
