About Us

tcg mcube

tcg mcube is an end-to-end analytics platform with the objective to perform 360-degree analytics. It covers the entire analytics spectrum, starting from data ingestion and integration from multiple data-sources, to storing them in a searchable big data repository, to building widgets and reports for descriptive analytics and to running statistical/mathematical models for predictive/prescriptive analytics and machine learning.

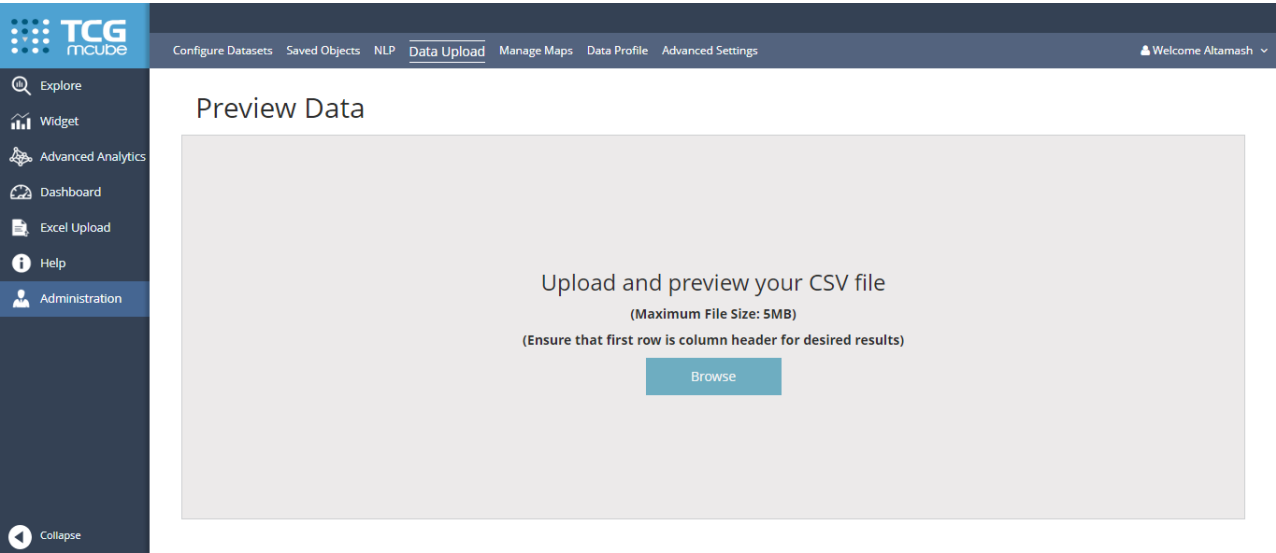

Our platform integrates the entire organization to attain management excellence by helping Business Owners, Managers, Data Scientists, and IT leaders with Prescriptive Analytics based on business events and real-time data for predicting the future, going beyond historical data analysis and current trends. tcg mcube (moniker from Monitoring, Measuring, and Managing) is our proprietary three-layered analytics platform that corresponds to:

1. Data integration from disparate sources
2. Information delivery, and
3. Algorithm-based analytics.

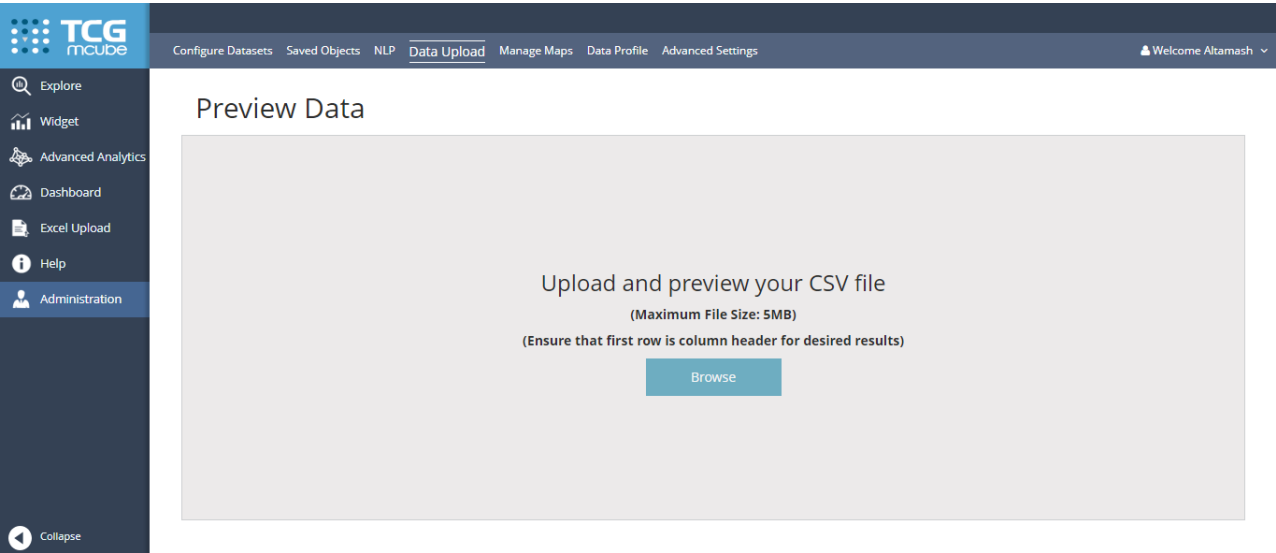

The core data model of **tcg mcube** leverages semantic data-modeling techniques to support different database objects and attributes that allows extensive customization.

Data has been uploaded successfully. 'Add Dataset' will make it visible to the current workspace

Stay Here Add Dataset

Column name		Example column data
Entry Date		23-03-2020
City	text	Delhi
Manager	text	John
Sales	number	1400
SAMPLESECURITYDEPARTMENT	text	Dept #1
SAMPLESECURITYUSER	text	tcguser
BATCHSECURITYDEPARTMENT	text	Dept #1

☐ Index contains time-based events

The screenshot shows the TCG mcube interface. The top navigation bar includes links like 'Configure Datasets', 'Saved Objects', 'NLP', 'Data Upload', 'Manage Maps', 'Data Profile', and 'Advanced Settings'. A user profile 'Welcome Altamash' is visible in the top right.

The left sidebar contains navigation options: 'Explore', 'Widget', 'Advanced Analytics', 'Dashboard', 'Excel Upload', 'Help', and 'Administration'.

The main content area displays the configuration for the dataset 'altamash_ghaus_tcgdigital_com_sampledata1004202...'. It features a star icon, a blue square icon, and an orange square icon. Below these icons, a paragraph explains that the page lists fields from the 'index-pattern:altamash_ghaus_tcgdigital_com_sampledata10042024115528' dataset and their associated core types as recorded by Elasticsearch. It mentions that while this list allows viewing core types, changing field types must be done using Elasticsearch's Mapping API.

A filter input field is present above a table titled 'Fields (21)'. The table has columns: name, alias, type, format, searchable, aggregatable, analyzed, excluded, and controls. The first four rows of the table are visible:

name	alias	type	format	searchable	aggregatable	analyzed	excluded	controls
_score		number						
_index		string		✓	✓			
_type		string		✓	✓			
_id		string		✓	✓
