The 'Power User' row contains sub-rows: 'Editor', 'Viewer', 'BD_Role', 'Mcube_Role27032024134521', and 'Mcube_Role27032024135416'. To the right of the 'Role List' is a 'Workbench' grid titled 'Workbench'. The grid has columns for 'Modules' (Explore, Widget, Dashboard, Advanced Analytics, Administration, Report, EzeXtend) and rows for 'View' and 'Interact' permissions. Most permissions are marked with green checkmarks, except for some red 'x' marks in the 'Administration' and 'Report' rows. At the bottom right of the grid are 'Cancel' and 'Save All' buttons.

This screenshot is similar to the first one, showing the 'Workbench' interface. However, a modal dialog box titled 'Workbench' is overlaid on the main content. The dialog displays the message 'Role Created.' and has an 'OK' button at the bottom center. The background of the main interface is dimmed.

This screenshot shows the 'Workbench' interface again. The sidebar and 'Role List' for 'Power User' are identical to the previous screens. Below the 'Role List' is the 'Workbench' grid, which is now fully visible. It shows the same set of modules and their corresponding View and Interact permissions as in the first screenshot.
