3

1

2

3

The screenshot shows the user interface after logging in. At the top, there is a header bar with the TCG mcube logo, the title 'new_screen_1008', and user-related links ('New', 'Open', 'Export as PDF', and a 'Welcome User' dropdown). On the left side, a vertical sidebar menu is visible with the following items: 'Explore', 'Widget', 'Advanced Analytics' (this item is highlighted with a blue background), 'Dashboard', 'Report', 'Help', 'Administration', and a 'Collapse' button at the bottom. The main content area is a large, empty white space.

VERSION CHECK

1

The screenshot shows the tcg mcube platform's user interface. On the left is a dark sidebar with a blue header containing the tcg mcube logo. The sidebar includes links for Explore, Widget, Advanced Analytics, Dashboard, Report, Help, and Administration. The Help link is currently selected, indicated by a blue background. Below the sidebar, there is a "Collapse" button. The main content area has a white background. At the top, it says "About Us". Below that is a section titled "tcg mcube" in red. A detailed description follows: "tcg mcube is an end-to-end analytics platform with the objective to perform 360-degree analytics. It covers the entire analytics spectrum, starting from data ingestion and integration from multiple data-sources, to storing them in a searchable big data repository, to building widgets and reports for descriptive analytics and to running statistical/mathematical models for predictive/prescriptive analytics and machine learning." Another paragraph states: "Our platform integrates the entire organization to attain management excellence by helping Business Owners, Managers, Data Scientists, and IT leaders with Prescriptive Analytics based on business events and real-time data for predicting the future, going beyond historical data analysis and current trends. tcg mcube (moniker from Monitoring, Measuring, and Managing) is our proprietary three-layered analytics platform that corresponds to:" followed by a numbered list: 1. Data integration from disparate sources, 2. Information delivery, and 3. Algorithm-based analytics. At the bottom, it says: "The core data model of tcg mcube leverages semantic data-modeling techniques to support different database objects and attributes that allows extensive customization." The footer of the main content area displays the text "Version: 4.5.3.0".

DATA UPLOAD

1

The screenshot shows the TCG mcube interface with the 'Data Upload' tab selected. On the left, a sidebar includes links for Explore, Widget, Advanced Analytics, Dashboard, Report, Help, and Administration. A 'Collapse' button is at the bottom of the sidebar. The main area is titled 'Preview Data' and contains instructions: 'Upload and preview your CSV file' (Maximum File Size: 5MB), '(Ensure that first row is column header for desired results)', and a 'Browse' button.

2

This screenshot is identical to the one above, showing the 'Preview Data' section with the same instructions and 'Browse' button.

3

The screenshot shows the 'Preview Data' section after a CSV file has been uploaded. It displays a table with 10 entries from a total of 41. The columns are labeled: Entry Date, City, Manager, Sales, SAMPLESECURITYDEPARTMENT, SAMPLESECURITYUSER, BATCHSECURITYDEPARTMENT, and BATCHSE. The data includes entries for Kolkata, Delhi, Mumbai, Hyderabad, and Bangalore. At the bottom, there is a 'Show 10 entries' dropdown and navigation buttons for 'Previous' and 'Next'.

Entry Date	City	Manager	Sales	SAMPLESECURITYDEPARTMENT	SAMPLESECURITYUSER	BATCHSECURITYDEPARTMENT	BATCHSE
01-08-2022	Kolkata	Rob	1200	Dept #1	tcguser	Dept #1	tcguser
02-08-2022	Delhi	John	1400	Dept #1	tcguser	Dept #1	tcguser
03-08-2022	Mumbai	Mary	14880	Dept #1	tcguser	Dept #1	tcguser
04-08-2022	Hyderabad	Paul	12003	Dept #1	tcguser	Dept #1	tcguser
05-08-2022	Bangalore	Bob	1234	Dept #1	sanket	Dept #1	tcguser

SAN-SAVE_SEARCH-01

1

The screenshot shows the TCG mcube search interface. The left sidebar includes 'Explore', 'Widget', 'Advanced Analytics', 'Dashboard', 'Report', 'Help', and 'Administration' sections. The main area displays a search result for 'admin_sampledata110...'. The results list four entries, each containing fields like 'Entry Date', 'City', 'Manager', 'Sales', and various security-related parameters. The results are paginated with '1' at the top.

SAN-AREA-01

1

The screenshot shows the TCG mcube visualization editor interface. The top navigation bar includes 'Widget > Area chart > supstore > New Widget' and standard actions like 'New', 'Save', 'Open', 'Refresh', and a user dropdown. On the left, a sidebar lists 'Explore', 'Widget', 'Advanced Analytics', 'Dashboard', 'Report', 'Help', and 'Administration'. The main panel is titled 'supstore' and contains sections for 'metrics' and 'buckets'. Under 'metrics', there are two Y-axis options: 'Count' (selected) and 'Sum of Customer ID'. Under 'buckets', there are three X-axis options: 'X-Axis', 'Split Area', and 'Split Chart'. A note states 'Area charts require more than one data point'. A 'Cancel' button is at the bottom.

2

This screenshot shows the same visualization editor interface as step 1, but with changes in the 'buckets' section. The 'X-Axis' option is selected, and it is configured with 'City: Descending' as the sub-bucket. The 'Split Chart' option is also present. A note 'Area charts require more than one data point' is visible. A 'Cancel' button is at the bottom.

3

This screenshot shows the final configuration of the area chart. The 'buckets' section now includes both 'City: Descending' and 'Discount: Descending' as sub-buckets. The chart view on the right displays multiple green area series representing the sum of customer IDs across different cities, with the x-axis labeled 'City: Descending' and the y-axis ranging from 0 to 50,000. The legend indicates 'Count' (blue circle) and 'Sum of Customer ID' (green circle). Top navigation buttons include 'OK' and a '3s' icon. A note 'Area charts require more than one data point' is visible. A 'Collapse' button is at the bottom.

SAN-DASHBOARD-01

1

The screenshot shows the TCG mcube interface for creating a new dashboard. On the left is a dark sidebar with navigation links: Explore, Widget, Advanced Analytics, Dashboard (which is selected), Report, Help, and Administration. A 'Collapse' button is at the bottom of the sidebar. The main area has a header 'New Dashboard' and a search bar. Below the header is a 'Time Range' section with three tabs: 'Quick' (selected), 'Relative', and 'Absolute'. Under 'Quick', there are fields for 'From: 11-07-2009' (set to '15 Years ago'), 'To: Now', and a checkbox 'round to the year'. A 'Go' button is at the bottom right of the time range panel. A note below the panel says: 'Click the Add button in the menu bar above to add a widget to the dashboard. If you haven't setup a widget yet visit the "Widget" tab to create your first widget.' On the right side, there are two blue buttons: 'Filters' and 'Logic Builder'.

2

This screenshot shows the same dashboard creation interface after adding three widgets. The sidebar and top header are identical to the first screenshot. The main area now contains three visualizations: 'Mcube_Area_Chart51200' (with a note 'This container is too small to render the visualization'), 'Mcube_Combo_Chart33379' (a stacked bar chart showing 'Count' and 'Sum of Customer ID' for cities like New York, Los Angeles, Chicago, and Boston), and 'Mcube_Tree_Table27546' (a tree table visualization). The right side still has 'Filters' and 'Logic Builder' buttons.

3

This screenshot shows the dashboard after it has been saved. The title bar now says 'Dashboard: Saved Dashboard as "Mcube_Dashboard97880"' and includes an 'OK' button with a checkmark icon. The dashboard content and sidebar are identical to the previous screenshots, showing the three widgets and the navigation menu.

 Download User Manual

SAN-ROLE-01

1

The screenshot shows the Workbench interface with a sidebar on the left containing navigation links for Development, Management (with Roles selected), Supervision, and a Download User Manual link.

The main area displays a "Role List" titled "Power User" with a sub-section "View inactive Roles". A table lists several roles: Viewer, Role1, bd_role, Bd_Role1, Bd_RoleEditor, Bd_RoleViewer, test, and Mcube_Role24042024155949.

A large configuration grid titled "Workbench" is shown for the "Power User" role. The grid has columns for "Modules" (Explore, Widget, Dashboard, Advanced Analytics, Administration, Report, EzeXtend) and rows for "View" and "Interact" permissions. Most permissions are marked with green checkmarks, except for some specific interactions like "Administration" which have red X's.

Buttons at the bottom right of the grid are "Cancel" and "Save All".

2

The screenshot shows the same Workbench interface as the first step, but with a modal dialog box in the center titled "Workbench" displaying the message "Role Created." with an "OK" button.

The background grid for the "Power User" role remains visible, showing the same configuration as in step 1.

3

The screenshot shows the Workbench interface again, but now with the "Role List" section expanded to show the newly created "Power User" role.

The main configuration grid for the "Power User" role is identical to the one in step 1, with green checkmarks for most permissions and red X's for some interactions like "Administration".
